Title: 	*Inaccurate wording in specification
Source: 	*my reading of CSW 2.0.2
Work item code: 	
Category: 	* D (Editorial modification)
Reason for change: 	* inaccurate wording
Summary of change: 	* page 143: In Table 65, the Keyword typeName -- should it be typeName? page 151:

	should this paragraph: The ElementName and ElementSetName parameters are mutually exclusive. Either an ElementSetName parameter OR one or more ElementSetName parameters shall be specified in a query. actually be: The ElementName and ElementSetName parameters are mutually exclusive. Either an ElementName parameter OR one or more ElementSetName parameters shall be specified in a query. (changed 2nd occurrence of ElementSetName to ElementName) http://schemas.opengis.net/csw/2.0.2/examples/Clause_10.6.6_Example.xml -- and others there -- have a relative schema location. I think it should be fixed to http://schemas.opengis.net for greater clarity. (This might have been fixed recently?)
Consequences if not approved: 	
Clauses affected: 	* 10.8.2, 10.8.4.9
