Title:	*Add "circle" to the list of allowed geometric types.
Source:	*N/A
Work item code:	
Category:	* B (Addition of feature)
Reason for change:	* Many mass market components define the ability to specify a circle as a point with a radius. Adding a circle property type would allow GMLSF to be used with these components more easily.
Summary of change:	* We probably need to relax the linear interpolation restriction on

CurvePropertyType but only for the case of CircleByCenterPoint.

Consequences if not approved: 

Clauses affected:

*

8.4.4.11.2
