<b>Title:</b>	*Conversion Functions
<b>Source:</b>	*A.6.5
<b>Work item code:</b>	
<b>Category:</b>	* <input type="text" value="D (Editorial modification)"/>
<hr/>	

**Reason for change:** 

\*

It is not mandatory for the conformance class I (BASIC) that the following functions are included:  
urn:ogc:def:function:geoxacml:1.0:convert-to-metre  
urn:ogc:def:function:geoxacml:1.0:convert-to-square-metre

**Summary of change:** 

\*

Move the following functions from conformance class I to conformance class II (STANDARD)  
urn:ogc:def:function:geoxacml:1.0:convert-to-metre  
urn:ogc:def:function:geoxacml:1.0:convert-to-square-metre

**Consequences if not approved:** 

Any implementation of conformance class I is obliged to implement the conversion functions, but there is no use for them. The conversion functions are only meaningful and mandatory for a conformance class II implementation.
