Title: ⓘ	*Declaration of <wfs:Native> element is incorrect.
Source: ⓘ	*Tim Schaub (tschaub[at]opengeo.org)
Work item code: ⓘ	
Category: ⓘ	* F (Critical correction)

Reason for change: ⓘ	* The declaration of the Native element appears to be incorrect in both the document and the online schema repository.
-----------------------------	---

Summary of change: ⓘ	* 1) Clause 7.5 define the Native element as: <pre><xsd:element name="Native" type="wfs:NativeType"/> <xsd:complexType name="NativeType"> <xsd:any /> <xsd:attribute name="vendorId" type="xsd:string" use="required"/> <xsd:attribute name="safeToIgnore" type="xsd:boolean" use="required"/> </xsd:complexType></pre> This is clearly not correct since there needs to at least be a
-----------------------------	---

THIS IS CLEARLY NOT CORRECT SINCE THERE NEEDS TO BE AT LEAST BE A sequence element in there somewhere.

2) The online wfs.xsd schema defines the Native element as:

```
<xsd:element name="Native"
type="wfs:NativeType"/>
<xsd:complexType name="NativeType">
<xsd:attribute name="vendorId"
type="xsd:string" use="required"/>
<xsd:attribute name="safeToIgnore"
type="xsd:boolean" use="required"/>
</xsd:complexType>
```

In both cases the declaration of the Native element should be changed to:

```
<xsd:element name="Native"
type="wfs:NativeType"/>
<xsd:complexType name="NativeType"
mixed="true">
<xsd:sequence>
<xsd:any processContents="lax"
namespace="##other" minOccurs="0"/>
</xsd:sequence>
<xsd:attribute name="vendorId"
type="xsd:string" use="required"/>
<xsd:attribute name="safeToIgnore"
type="xsd:boolean" use="required"/>
</xsd:complexType>
```

Consequences if not approved: ⓘ

Clauses affected: ⓘ

*
Clause 7.5 and <http://schemas.opengis.net/wfs/1.1.0/wfs.xsd>.
