Title:ⓘ	* [EO PMOS SWG] Addition of optional element insertionDate
Source:ⓘ	*ESA/GIM
Work item code:ⓘ	
Category:ⓘ	* B (Addition of feature)

Reason for change:ⓘ	* It is useful to know when the metadata was inserted inside the Catalogue (for harvesting use cases etc). This is not necessarily the same as the metadata creation date. It is therefore beneficial to add an additional optional metadata element â��insertionDateâ�� This "insertionDate" is the date of insertion of the metadata record into the Catalogue system. Note that this value is completed by the catalogue system upon ingestion and may be different from the creationDate, processingDate, archivingDate and acquisitionDate.

Summary of change:	* Addition of optional metadata element insertionDate of type dateTime in the EarthObservationMetaData class
Consequences if not approved:	
Clauses affected:	* 8.1.1 (UML and corresponding table Table 5)
Additional Documents affected:
