Title:	* Naming convention in GML should not depend on upper / lower case
Source:	* _
Work item code:	
Category:	* D (Editorial modification)

Reason for change:	* Enable code generation without adaptation such as a binding files in Java XML Binding (JAXB).
Summary of change:	* Currently, binding files are required to enable code Java code generation. The need for such binding file arises from the fact that some elements within GML only differ in the way they use capitals. Examples include: * elipsoid and Elipsoid (datums.xsd) * cartisianCS and CartesianCS (coordinateReferenceSystems.xsd)
Consequences if not approved:	-

Clauses affected:	* gml 3.2.1
Additional Documents affected:	-
